

WellConnect Plus™ User Guide

How to Schedule a Screening Appointment

- 1 Once logged in, navigate to the “On-Site Screening” tile and select “Continue”.

- 2 You will then be prompted to consent to the parameters of your health screening. Please review this text before checking “I Agree” and clicking “Save”.

3 You can now search for screening appointments by location or date. In most cases, the location option is preferred. In either scenario, the search may be refined by entering a zip code. With the zip code, the user may change the search radius to further constrict or expand the resulting location list.

Location-First Flow

Date-First Flow

4 Once you have identified the most convenient location, you can search for the optimal date at that location. You will then be able to see all available appointment times.

5 The next step is to find the best available appointment time for your screening and select **“Schedule Appointment”** to the right of the page.
