

Through New Ministry Strategy Cultivators, we will identify, equip, and cultivate new congregations and new ministry in existing churches to reach their communities.

The initiative will identify the needs of our clergy, while striving to make current resources readily available for them. New tools will be created to foster both healthy clergy and healthy congregations.

**Through new congregations for new people**

**Through intentional discipleship and small-group Bible studies**

The Board of Discipleship and Connectional Ministries will empower congregations to grow by starting Disciple Bible Studies, developing discipleship pathways, and practicing spiritual disciplines.

**Through healthy clergy leading healthy congregations**

**Through renewed commitment to open itineracy for female clergy & clergy of color**

Recognizing the gifts of all of our clergy, the AWF Cabinet will identify, train, and support congregations to receive clergy of color and female clergy as their Senior Pastor.

**REVIVE  
US  
AGAIN**
